

Shiloh Brings African Gospel Back To It's Roots

Friday, 09 May 2008

Shiloh is a dream-come true. Its national launching at the National Theatre on 2nd March 2008 is a success story of translating a dream into reality. The exploits of Shiloh also reveal boldness, determination and selflessness. This dream was conceived by its hard working producer Pastor Sampson Joe Baning. Shiloh Super African Live Gospel Band has now come to stay after overcoming numerous challenges that should have been enough to let them give up. Today, this amazing crowd puller of a band whose "SAL SOUND" soothes the hearts of its fans and other listeners is now poised to cause a revolution in gospel music in Ghana, Africa, and the entire world.
